RELATED EXPERIENCE

Frontend Developer for Kip, November 2016 - August 2017

- Worked in a small team to create a team/enterprise focused commerce bot
- Created a React Webapp from the ground up using Redux, Webpack, and SASS/SCSS, including working with a backend team's API

Intern for Chubb Insurance Corporation, Summers 2014, 15

- Worked with the Digital Business team to create internal HTML and JavaScript apps for testing and searching
- Created complex modular JavaScript grids including session storage, searching, and sorting
- Worked in Claims IT to upgrade applications from VB6 to VB.Net, as well as Task Tray apps to aid in switching servers, parsing SQL

Visuals Editor for School Newspaper, *The Brown and White*, 2016

- Worked in coordination with nearly 50 other students to create an entirely student run newspaper twice a week
- Managed a group of 30 photographers to ensure every article had visual elements
- Aided in styling/widget setup of Wordpress
- Setup A/B headline testing on website, mostly through JavaScript

RECENT PERSONAL PROJECTS

Magic Gifs Twitter Bot *twitter.com/MagicGifsBot*

- Python twitter bot which uses natural language processing and the Giphy API to reply to tweets with relevant gifs

Spotify Autoplaylists *spotifyapps.chriswbarry.com*

- Node.JS/Express website and apps which use Last.FM and Spotify APIs to automatically generate most played or recently added playlists updated every few hours
